

Rights of NATURE

AND Community

Community Rights and Rights of Nature go hand in hand. Humans, animals, and plants all need fresh water, clean soil, and unpolluted air to survive and thrive for the next generation.

BUT WHAT ARE RIGHTS OF NATURE AND HOW DO THEY AFFECT ME?

THE QUICK EXPLANATION IS...

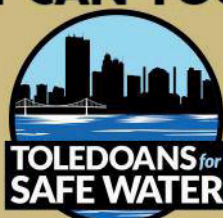

UNDER THE CURRENT SYSTEM OF LAW, NATURE IS CONSIDERED PROPERTY. BECAUSE OF THIS, OWNERS/CORPORATE ENTITIES HAVE THE RIGHT TO DAMAGE OR DESTROY IT.

ESTABLISHING RIGHTS OF NATURE ALLOWS THIS ECOSYSTEM TO BE VIEWED AS AN ENTITY THAT HAS THE RIGHT TO EXIST, FLOURISH AND THRIVE.

COMMUNITY RIGHTS ARE ENTWINED WITH RIGHTS OF NATURE BECAUSE WE COEXIST. IF WE CANNOT DRINK THE WATER, BREATHE THE AIR, OR USE THE SOIL, WE CANNOT SURVIVE.
